SUPPLEMENTARY INFORMATION: The FGDC is a committee of Federal agencies charged with coordinating the development of the NSDI. The NSDI includes the technology, policies, and people necessary to promote geospatial data sharing throughout all levels of government, the private and non-profit sectors, and academia. FGDC subcommittees and working groups, assisted by representatives of the broader geospatial data community, establish standards for data content, quality, and transfer; encourage the exchange of information and the transfer of data; and organize the collection of geographic data to reduce duplication of effort. A plan developed in 1994 guided initial NSDI implementation activities. The November 7-8 meeting will provide an opportunity for the entire geospatial community of data producers and users to participate in open discussion and development of NSDI implementation strategies for the next four years. The draft strategy document is available for review prior to the meeting by contacting Jennifer Fox (see contact information) or at Internet address <http://www.fgdc.gov/strategy/>
